Under no circumstances may a pitcher pitch in three consecutive days, this was new in 2018.

Max pitch count is 85 for baseball 11-12 yrs old; 75 for baseball 9-10 yrs old; 50 for baseball 8 yrs old.

If threshold pitch count is encountered during an at bat then the at bat is permitted to finish with a revert. Example pitcher starts batter at 34, three pitches late batter is out, 37 pitches, reverts to 35, if you then remove the pitcher, for days of rest.

Catcher-pitcher rule:

If player catches for more than 3 innings, then the player cannot pitch the remainder of the day.

Pitcher-catcher rule:

If a player reaches 40 pitches during an at bat, player is allowed to finish batter, and revert to 40. More than 40 pitches may not catch remainder of day.
